

## Kuhlmann's Greenhouse Garden Market

### **What food was at Feast?**

Vegetables for coleslaw, tomato-veggie salad, carrots & beans.

### **What can I find at Kuhlmann's?**

"Our history begins in 1962 as a Pick your Own stand started by Dietrich and Elizabeth Kuhlmann on a modest stretch of rented land.

While things may have changed, Kuhlmann's continues to offer you the best in locally grown produce, plants, trees and much more. We have over 300,000 square feet of greenhouse space, which means we have room for an incredible selection of unique gift ideas, garden décor, tools, and a fantastic floral shop that can cater to any need."

At Kuhlmann's Greenhouse Garden Market you can find locally grown produce including: beans, beets, broccoli, brussell sprouts, carrots, corn, cabbage, cucumbers, celeriac, cauliflower, dill weed, garlic, kale, leeks, lettuce, onions, parsnips, peas, potatoes, pumpkins, radishes, rutabaga, swiss chard, spinach, squash, tomatoes and zucchini.

### **Where is Kuhlmann's?**

The market store:

1320 - 167 Avenue NW  
Edmonton, AB

Vegetables are also available at various area farmers markets.
